

# Bio-Acidophilus

(containing the unique LAB<sup>4</sup> Complex)

## Product Information per Daily Intake (2 Capsules)

Fructooligosaccharides (F.O.S.)	195.16mg
<i>Lactobacillus acidophilus</i> (strains CLT-60 & CUL-21)	100mg
<i>Bifidobacterium bifidum</i> (strains CUL-17 & CUL-20) (providing a total of 16 billion viable proprietary organisms)	8.9mg

### Ingredients:

Bulking Agent (Cellulose), Fructooligosaccharides, Capsule (Hydroxypropyl methylcellulose & Water), *Lactobacillus acidophilus* (CLT-60 & CUL-21), Anti-caking Agents (Silicon dioxide & Vegetable Magnesium Stearate), *Bifidobacterium bifidum* (CUL-17 & CUL 20).

## Additional Information

A unique probiotic blend in capsule form suitable for everyday use. Bio-Acidophilus contains the unique LAB<sup>4</sup> complex of probiotic bacteria. This complex consists of two proprietary strains of *Lactobacillus acidophilus* and two proprietary strains of *Bifidobacterium bifidum*. LAB<sup>4</sup> strains are human strain and acid-stable, and **available only from BioCare**. LAB<sup>4</sup> has been tested extensively and has proven efficacy.

*L. acidophilus* and *B. bifidum* are viable, beneficial intestinal bacteria that naturally exist together in the gastrointestinal tract. These organisms have been shown to colonise the human intestinal tract and help maintain the health of the digestive system.

- Contains the unique, extensively tested LAB<sup>4</sup> complex of friendly bacteria only available from BioCare
- Human compatible adhesion strains that are bile and acid tolerant and dairy-free
- *L. acidophilus* may reduce the proliferation of yeast organisms and helps reduce the colonisation of unfriendly bacteria by producing natural antibiotic substances on the intestinal wall
- *L. acidophilus* and *B. bifidum* may help to support blood lipid levels when used in conjunction with a low fat diet
- *B. bifidum* helps to reduce colonisation of opportunistic organisms
- Fructooligosaccharides (F.O.S.) when ingested, provide a specific food source for the growth of friendly intestinal bacteria
- Vacuum packed and microencapsulated to maintain the stability of these fragile organisms

## Allergen Information

None

## Recommended Intake

Two capsules taken daily with food, or as professionally directed.

## Suggested Combinations

Combine with Adult Multivitamins and Minerals for general support. Take alongside Oregano Complex, Garlic Plus or Mycopyryl® to support gastrointestinal health.
