Additional Information

Vitasorb® B12 is a liquid vitamin B12 preparation incorporating BioCare's Vitasorb® process for maximising absorption efficiency.

Vitasorb® B12 is absorbed efficiently and can be taken in much lower doses.

Vitasorb® vitamins can be taken sublingually (under the tongue) or added to water, fruit juice or milk. The Vitasorb® range is formulated with the intolerant individual in mind.

- Provides liquid vitamin B12 to facilitate absorption
- Vitamin B12 is essential for the production of healthy red blood cells
- Vitamin B12 is required for the maintenance of healthy nerve function
- Ideal for those who have difficulty swallowing capsules and tablets
- Can be taken sublingually (under the tongue) for those with gastrointestinal problems
- Ideal for individuals with malabsorption problems
- Suitable for veterinary use as a food supplement for animals
- Detergent and surfactant free
- Suitable for children from birth and for the elderly

Allergen Information

None

Recommended Intake

Five drops from birth to 12 months of age, and ten drops (five drops twice a day) from 12 months (and adults), taken daily in water, juice or milk with food, or taken directly under the tongue, or as professionally directed.

Suggested Combinations

Combine with Vitasorb® B for general support.
