

## Guarantee

Your Vapourstone is guaranteed against manufacturing defects for one year from date of purchase.

To register your guarantee complete the cut-off slip overleaf and return it to us at the following address.

**Wade Ceramics Ltd**  
Hilltop, Burslem, Stoke-On-Trent,  
Staffordshire ST6 4AG

This guarantee does not affect your statutory rights.

## Warning

The well of the Vapourstone gets HOT in use. This surface should not be touched when the product is in use. This surface takes a few minutes to cool down after the Vapourstone has been unplugged from the mains supply.

Take care when placing the Vapourstone on a polished surface.

The Vapourstone is not to be covered and is for use in dry environments only (e.g. not for use in bathrooms).

## Essential Oil Safety notes

- ▶ Never take essential oils internally.
- ▶ Keep away from children.
- ▶ Keep away from eyes.
- ▶ Do not apply essential oils to the skin.

LA0049 Issue 1

EST. 1810 ENGLAND

**Congratulations on the purchase of your new Wade Vapourstone, which facilitates the gentle and safe vaporisation of Essential oils or fragrances from an attractive ceramic bowl.**

**How to use your Vapourstone**

Simply find a suitable place to locate your Vapourstone - on a safe, stable surface close to an electrical socket. Place 2 or 3 drops of essential oil in the well (fig. 1), optionally add a teaspoon or two of water (5-10ml) to the oil, and then plug in your Vapourstone (fig. 2). It will take a few minutes to warm up, and then you will begin to notice the fragrance filling the room. For large areas, additional Vapourstones can be used as required. Additional drops of oil and water can be added as required. We always recommend that the Vapourstone is disconnected from the electrical supply before oils or water are added.

**Notes**

The Vapourstone can be easily cleaned with a damp cloth. For more resistant deposits a proprietary surface cleaner can be used. Do not immerse in water.

Do not move the Vapourstone when it is connected to the electrical supply, nor when it contains oils/water. Always use essential oils according to the manufacturer's instructions, some essential oils are not suitable for use during pregnancy or for babies under 3 years. The Vapourstone is only to be used with a recommended vaporising medium. The use of other substances may be hazardous.

**Electrical Information**

This product is fitted with a BS1363 13 Amp plug, fused at 3 Amps. If it is necessary to replace the fuse only a 3 Amp fuse should be used.

If the plug is unsuitable for your electrical socket it should be disconnected and an appropriate plug fitted as detailed below. If in doubt consult a qualified electrician. The blue/neutral wire should be connected to the terminal which is marked N or coloured black. The brown/live wire must be connected to the terminal marked L or coloured red. Neither wire should be connected to the earth pin marked E, or coloured green/green and yellow.

Only a normal domestic electricity supply should be used. Socket must be easily accessible.

The mains lead cannot be repaired or replaced if it becomes damaged. The product must be discarded if any damage occurs. There are no user serviceable parts inside this product.
